Follow the installation instructions (see page 6) when drilling the mounting holes.

Installation Considerations

- For best results, Hansgrohe recommends that this unit be installed by a licensed, professional plumber.
- Please read over these instructions thoroughly before beginning installation. Make sure that you have all tools and supplies needed to complete the installation.
- The screws and anchors included with this set are suitable for use in a tile or other solid surface wall. They are not suitable for use in an acrylic or fiberglass shower enclosure. Please contact the manufacturer of the enclosure regarding recommended mounting locations, reinforcement requirements, and mounting hardware.
- This unit does not include a wall supply. It must be used with Hansgrohe model 27458xx3 or another approved supply that complies with ASME A112.18.1/CSA B125.1 including ASME A112.18.3.
- To prevent scald injury, the maximum output temperature of the shower valve must be no more than 120°F.In Massachusetts, the maximum output temperature of the shower valve can be no higher than 112°F.
- Keep this booklet and the receipt (or other proof of date and place of purchase) for this product in a safe place. The receipt is required should it be necessary to request warranty parts.

À prendre en considération pour l'installation

- Pour de meilleurs résultats, Hansgrohe recommande que ce produit soit installé par un plombier professionnel licencié.
- Veuillez lire attentivement ces instructions avant de procéder à l'installation. Assurez-vous de disposer de tous les outils et du matériel nécessaires pour l'installation.
- Les vis et chevilles comprises dans cet ensemble conviennent pour une utilisation sur mur carrelé ou autre surface solide.
- Pour une installation dans une cabine de douche en fibre de verre ou en acrylique, contactez le fabricant de la cabine pour connaître les pièces de fixation et emplacements de montage recommandés.
- Ce produit n'est pas fourni avec un coude de raccordement. Il doit être utilisé avec le modèle 27458xx3 d'Hansgrohe ou un autre coude approuvé et conforme à la norme ASME A112.18.1/CSA B125.1, incluant ASME A112.18.3.
- Pour empêcher des blessures par ébouillantement, la température de sortie maximale du robinet de douche ne doit pas excéder 120°F. Au Massachusetts, la température de sortie maximale du robinet de douche ne doit pas excéder 112°F.
- Conservez ce livret et le reçu (ou une autre preuve sur laquelle figurent la date et l'endroit de l'achat) pour ce produit dans un endroit sûr. Le reçu est requis si vous commandez des pièces sous garantie.

Datos tecnicos

Caudal máximo	2.5 GPM

Consideraciones para la instalación

- Para obtener mejores resultados, la instalación debe estar a cargo de un plomero profesional matriculado.
- Antes de comenzar la instalación, lea estas instrucciones detenidamente. Asegúrese de tener las herramientas y los insumos necesarios para completar la instalación.
- Los tornillos y pernos de anclaje incluidos en este juego son aptos para utilizar en azulejos u otra superficie sólida de pared.
- En caso de instalarlo en un cerramiento de ducha de fibra de vidrio o acrílico, contáctese con el fabricante del cerramiento con respecto a los lugares de montaje y los herrajes para el montaje recomendados.
- Esta unidad no incluye una toma de pared (coude de raccordement/toma de agua) Debe utilizarse con el modelo Hansgrohe 27458xx3 u otra toma aprobada que cumpla con las normas ASME A112.18.1/CSA B125.1, incluida la norma ASME A112.18.3.
- Para evitar escaldaduras, la máxima temperatura de salida de la válvula de la ducha no debe exceder los 120°F. En Massachusetts, la máxima temperatura de salida de la válvula de la ducha no debe exceder los 112°F.
- Mantenga este folleto y el recibo (u otro comprobante del lugar y fecha de compra) de este producto en lugar seguro. El recibo se requiere en caso de ser necesario solicitar piezas bajo garantía.

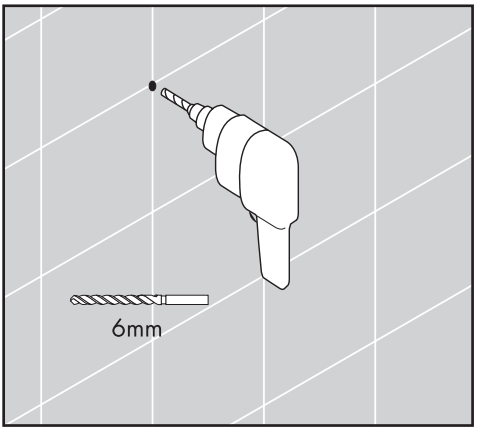
Unica'E Wallbar installation

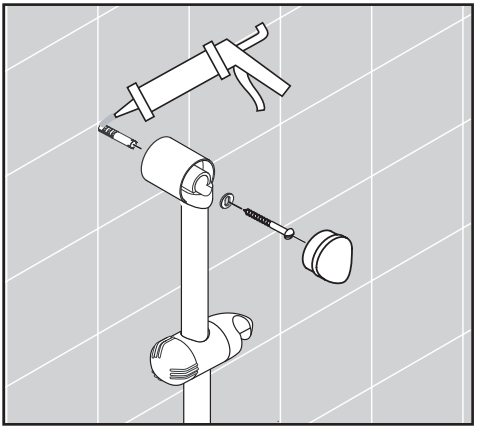
Remove the screw covers.

Mark the positions of the screw holes.



Drill the holes using a 6 mm bit.

Do not drill into existing water lines!



Install the anchors.

Seal the wall around the anchors with waterproof sealant.

Failure to seal the wall can lead to possible water damage.

Install the wallbar using the screws and washers.

Install the screw covers.

Install the soap dish (optional).

Français

Installation de Unica'E

Retirez les cache-vis de la barre murale.

Placez la barre murale sur l'emplacement souhaité. Marquez les positions des trous de vissage.

Percez les trous à l'aide d'une mèche de 6 mm.

Ne percez pas dans les conduites d'eau!

Installez les chevilles.

Scellez le mur autour des chevilles à l'aide d'un agent d'étanchéité.

Si le mur n'est pas scellé, l'eau pourrait éventuellement causer des dommages.

Installez la barre murale à l'aide des vis et des rondelles.

Installez les cache-vis.

Installez le porte-savon (en option).

Español

Instalación de Unica'E

Retire las tapas de los tornillos del soporte de pared.

Coloque el soporte de pared en el lugar deseado. Marque las posiciones de los orificios para tornillos.

Perfore los orificios con una broca de 6 mm.

¡No perfore las tuberías de agua existentes!

Instale los pernos de anclaje.

Selle la pared alrededor de los pernos de anclaje con un sellador impermeable.

Si no se sella la pared, pueden producirse daños por acción del agua.

Instale el soporte de pared con tornillos y arandelas.

Instale las tapas de los tornillos.

Instale la jabonera (opcional).

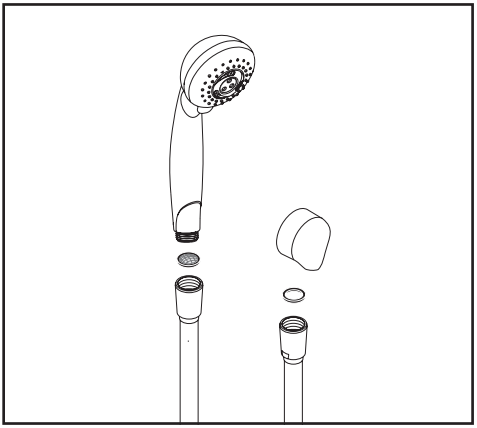
Install the covers.



Place a black rubber washer in one end of the handshower hose. Connect this end to the wall supply (not included).

Place a second washer in the other end of the hose. Connect this end to the handshower.

Rest the handshower in the holder.

Français

Installez les cache-vis.

Placez une rondelle en caoutchouc noir dans l'une des extrémités du tuyau de douchette.

Vissez le tuyau à la coude d'alimentation (pas inclus).

Placez la deuxième rondelle en caoutchouc noir dans l'autre extrémité du tuyau.

Vissez cette extrémité du tuyau à la douchette. Déposez la douchette dans son support.

Español

Instale las tapas de los tornillos.

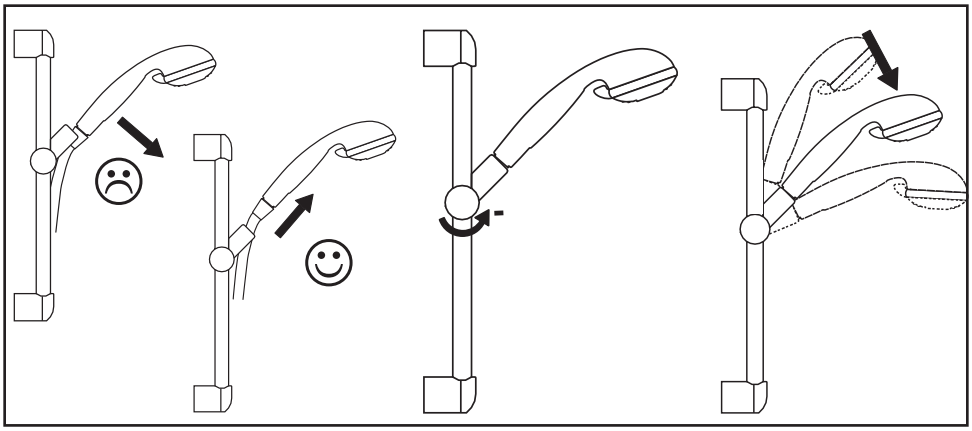
Coloque una arandela de goma negra en un extremo de la manguera de la ducha de mano.

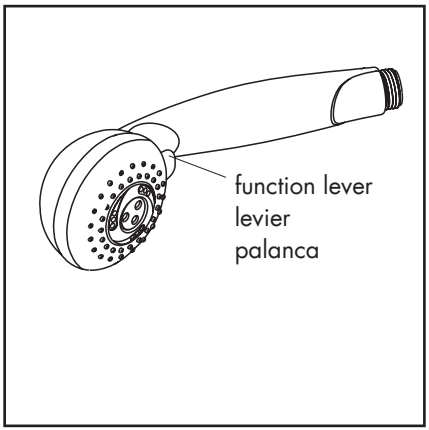
Enrosque la manguera al codo abastecador (no incluidos).

Coloque la segunda arandela de goma negra en el otro extremo de la manguera.

Enrosque este extremo de la manguera a la ducha de mano. Apoye la ducha de mano en el soporte.

User Instructions / Instructions à l'intention de l'utilisateur / Instrucciones para el usuario





Push the function lever to the desired function.

Pour changer de mode de jet, pousser le levier.

Cambie los modos de rociado pulsando la palanca.

Remove scale deposits from the spray channels by rubbing across them with fingers or a sponge.

Si les canaux de jet deviennent entartrés, frottez-les avec les doigts ou à l'aide d'une éponge pour en déloger les dépôts.

Elimine los depósitos calcificados de los canales de rociado frotándolos con los dedos o una esponja.

Remove scale deposits from the spray face by soaking it in a commercial scale remover such as Lime-Away or CLR.

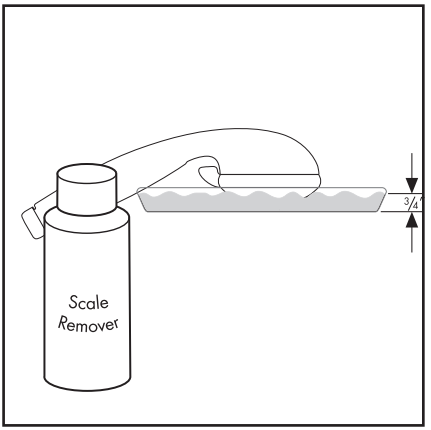
Follow the instructions on the product label.

Si la face des jets s'entartre, faites-la tremper dans un détartrant commercial, tel que Lime-Away ou CLR.

Suivez les instructions figurant sur l'étiquette du produit.

Elimine los depósitos calcificados de la superficie de rociado remojándola en un desincrustante comercial como Lime-Away o CLR.

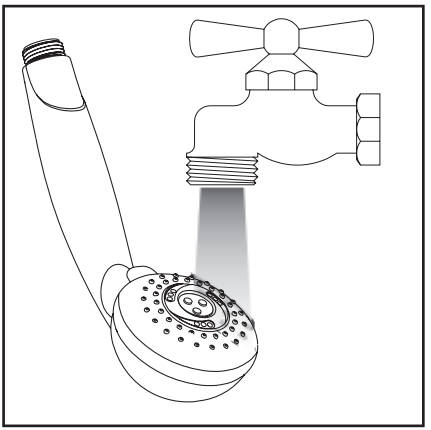
Siga las instrucciones de la etiqueta del producto.



Rinse the handshower with clear water.

Rincez la douchette à l'eau claire.

Enjuague la ducha de mano con agua limpia.



Install the handshower and flush it for at least one minute.

Installez la douchette et faites-la fonctionner pendant au moins une minute.

Instale la ducha de mano y lávela durante un minuto como mínimo.

Cleaning Recommendation for Hansgrohe Products

Modern lavatory faucets, kitchen faucets, and showers consist of very different materials to comply with the needs of the market with regard to design and functionality. To avoid damage and returns, it is necessary to consider certain criteria when cleaning.

Cleaning Materials for Faucets and Showers

Acids are a necessary ingredient of cleaning materials for removing lime, however please pay attention to the following points when cleaning faucets and showers:

- Only use cleaning materials which are explicitly intended for this type of application.
- Never use cleaning materials which contain hydrochloric, formic, phosphoric, or acetic acid, as they cause considerable damage.
- Never mix one cleaning material with another.
- Never use cleaning materials or appliances with an abrasive effect, such as unsuitable cleaning powders, sponge pads, or micro fiber cloths.

Cleaning Instructions for Faucets and Showers

Please follow the cleaning material manufacturer's instructions. In addition, pay attention to the following points:

- Clean the faucets and showers as and when required
- Use the amount of cleaning product and the amount of time recommended by the manufacturer. Do not leave the cleaner on the fixture longer than necessary.
- Regular cleaning can prevent calcification.
- When using spray cleaners, spray first onto a soft cloth or sponge. Never spray directly onto the faucet as droplets can enter openings and gaps and cause damage.
- After cleaning, rinse thoroughly with clean water to remove any cleaner residue.

Important

Residues of liquid soaps, shampoos, and shower foams can also cause damage, so rinse with clean water after using.

Please note: if the surface is already damaged, the effect of cleaning materials will cause further damage.

Components with damaged surfaces must be replaced or injury could result.

Damage caused by improper treatment is not covered under the warranty.

Recommandations pour le nettoyage des produits Hansgrohe

Les robinetteries modernes de lavabo, de cuisine et de douche utilisent des matériaux très différents pour répondre aux besoins du marché en termes de conception et de fonctionnalité. Certaines règles de base doivent être respectées lors du nettoyage de ces produits afin d'éviter de les endommager ou d'avoir à les retourner.

Produits de nettoyage pour robinetteries et douches

Les acides sont une partie intégrante nécessaire de tous les produits de détartrage; il faut cependant prendre les précautions suivantes lors du nettoyage des robinets et des douches :

- N'utilisez que des produits/articles de nettoyage conçus spécifiquement pour les articles de robinetterie et de douche.
- N'utilisez jamais de produits/articles de nettoyage contenant de l'acide chlorhydrique, formique, phosphorique ou acétique car ils pourraient causer des dommages considérables.
- Ne mélangez jamais deux produits de nettoyage.
- N'utilisez jamais de produits/articles de nettoyage de nature abrasive tels que poudres de nettoyage, tampons-éponge ou chiffons microfibre non appropriés.

Instructions de nettoyage pour robinetteries et douches

Veuillez suivre les instructions du fabricant de produits/articles de nettoyage. De plus, tenez compte des conseils suivants :

Nettoyez vos produits de robinetterie et de douche aussi souvent que nécessaire.

- Utilisez la quantité de produit nettoyant et respectez la durée recommandée par le fabricant. Ne laissez pas le produit sur les articles de robinetterie plus longtemps que nécessaire.
- Un nettoyage régulier peut prévenir la formation de dépôts calcaires.
- Si vous utilisez des nettoyants en vaporisateur, vaporisez d'abord sur une éponge ou un chiffon. Ne vaporisez jamais directement sur un robinet : des gouttelettes pourraient s'infiltrer dans les ouvertures et les interstices et endommager celui-ci.
- Après le nettoyage, rincez abondamment avec de l'eau propre pour éliminer tout résidu de produit nettoyant.

Important

Les résidus de savon liquide, de shampoing et de mousse pour la douche peuvent également endommager la robinetterie; rincez donc avec de l'eau propre après utilisation de ces produits.

Veuillez noter : si la surface est déjà endommagée, les produits de nettoyage l'endommageront encore plus.

Les composants dont la surface est endommagée devraient être remplacés sous peine d'entraîner des blessures.

Les dommages dus à un mauvais traitement ne sont pas couverts par la garantie.

Recomendación de limpieza para los productos de Hansgrohe

Hoy en día, las griferías de baño y de cocina así como duchas modernas se componen de materiales muy distintos para satisfacer las exigencias del mercado respecto al diseño y la funcionalidad. Para evitar daños reclamaciones hay que tener en cuenta ciertos aspectos tanto en el uso como en su limpieza posterior.

Para elucidado de las griferías y las duchas en principio hay que seguir lo siguiente:

- Usar sólo detergentes previstos específicamente para este campo de aplicación.
- No aplicar detergentes que contengan hipoclorito sódico, ácido clorhídrico, fórmico o acético porque pueden causar daños importantes.
- Detergentes que contienen ácido fosfórico tampoco pueden ser aplicados ilimitadamente.
- Por regla general no se deben mezclar detergentes.
- Tampoco se deben utilizar utensilios abrasivos, como son polvos abrasivos, esponjas o paños de microfibra.
- Si tienen que seguir siempre las instrucciones de uso de los fabricantes de los detergentes.
- La limpieza tiene que ser realizada según la dosificación y el tiempo de actuación, en función del objeto y ajustada a las necesidades específicas del mismo.
- Gracias a una limpieza periódica se pueden evitar las incrustaciones de cal.
- No conviene rociar el detergente en ningún caso sobre la grifería sino sobre los textiles y ejecutar la limpieza así porque el líquido puede entra en aperturas o hendiduras de la grifería y causar daños.
- Después de la limpieza hay que aclarar con suficiente agua para eliminar completamente el resto de detergente.
- La utilización de limpiadores a vapor no está permitida, las altas temperaturas pueden dañar los productos.

Indicaciones importantes

Los residuos de productos de aseo como jabón líquido, champús y gel de ducha pueden dañar también los materiales.

Por lo que también se deberá prestar atención a lo siguiente: aclarar con abundante agua después del uso.

Con materiales ya dañados la acción de detergentes incrementará el desgaste de estos.

Los componentes con superficies dañadas deberán cambiarse, en otro caso se corre el peligro de lesionarse.

Los daños que resulten de un uso inadecuado no están incluidos en nuestra garantía.

Limited Consumer Warranty

This product has been manufactured and tested to the highest quality standards by Hansgrohe, Inc. ("Hansgrohe"). This warranty is limited to Hansgrohe products that are purchased by a consumer in the United States or Canada after March 1, 1996, and installed in either in the United States or in Canada.

WHO IS COVERED BY THE WARRANTY

This warranty extends to the original purchaser only. This warranty is non-transferable.

WHAT IS COVERED BY THE WARRANTY

The warranty covers only your Hansgrohe manufactured product. Hansgrohe warrants this product against defects in material or workmanship as follows:

Hansgrohe will replace at no charge for parts only or, at its option, replace any product or part of the product that proves defective because of improper workmanship and/or material, under normal installation, use, service and maintenance. If Hansgrohe is unable to provide a replacement and repair is not practical or cannot be made in timely fashion, Hansgrohe may elect to refund the purchase price in exchange for the return of the product.

LENGTH OF WARRANTY

Replacement or repaired parts of products will be covered for the term of this warranty, as stated in the following two sentences. If you are a consumer who purchased the product for use primarily for personal, family or household purposes, this warranty extends for as long as you own the product and the home in which the product is originally installed. If you purchased the product for use primarily for any other purpose, including, without limitation, a commercial purpose, this warranty extends only (i) for 1 year, with respect to Hansgrohe & Commercial products, and (ii) for 5 years, with respect to Axor products.

THIS WARRANTY DOES NOT COVER, AND HANSGROHE WILL NOT PAY FOR:

A. Conditions, malfunctions or damage not resulting from defects in material or workmanship.

B. Conditions, malfunctions or damage resulting from (1) normal wear and tear, improper installation, improper maintenance, misuse, abuse, negligence, accident or alteration; (2) the use of abrasive or caustic cleaning agents or "no-rinse" cleaning products, or the use of the product in any manner contrary to the product instructions; or (3) conditions in the home such as excessive water pressure or corrosion.

C.Labor and other expenses for disconnection, deinstallation, or return of the product for warranty service (including but not limited to proper packaging and shipping costs), or for installation or reinstallation of the product.

D. Accessories, connected materials and products, or related products not manufactured by Hansgrohe.

E. Any Hansgrohe or Axor product sold for display purposes.

F. Rubbed Bronze finish is subject to a 3-year limited warranty. Chrome and all PVD finishes are covered by the limited lifetime warranty.

G. Hansgrohe Water Filtration System is subject to a 1-year limited warranty. Warranty does not include replacement filters.

TO OBTAIN WARRANTY PARTS OR INFORMATION

Contact your Hansgrohe retailer, or contact Technical Service at:

Hansgrohe, Inc.
1492 Bluegrass Lakes Parkway
Alpharetta, GA 30004
Toll-free 800-334-0455

In requesting warranty service, you will need to provide:

1. The sales receipt or other evidence of the date and place of purchase.
2. A description of the problem.
3. Delivery of the product or the defective part, postage prepaid and carefully packed and insured, to:

Hansgrohe, Inc.
1492 Bluegrass Lakes Parkway
Alpharetta, GA 30004
Toll-free 800-334-0455

When warranty service is completed, any repaired or replacement product or part will be returned to you postage prepaid.

EXCLUSIONS AND LIMITATIONS

REPAIR OR REPLACEMENT (OR, IN LIMITED CIRCUMSTANCES, REFUND OF THE PURCHASE PRICE) AS PROVIDED UNDER THIS WARRANTY IS THE EXCLUSIVE REMEDY OF THE PURCHASER. HANSGROHE NEITHER ASSUMES NOR AUTHORIZES ANY PERSON TO CREATE FOR IT ANY OTHER OBLIGATION OR LIABILITY IN CONNECTION WITH THIS PRODUCT. HANSGROHE SHALL NOT BE LIABLE TO PURCHASER OR ANY OTHER PERSON FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, ARISING OUT OF BREACH OF THIS WARRANTY OR ANY IMPLIED WARRANTY (INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY).

Some States do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state.

TO THE EXTENT PERMITTED BY LAW, ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THE EXPRESS WARRANTY.

Some states do not allow limitations on how long an implied warranty may last, so the above limitations may not apply to you. You may be required by law to give us a reasonable opportunity to correct or cure any failure to comply before you can bring any action in court against us under the Magnuson-Moss Warranty Act.

PRODUCT INSTRUCTIONS AND QUESTIONS

Upon purchase or prior to installation, please carefully inspect your Hansgrohe product for any damage or visible defect. Prior to installing, always carefully study the enclosed instructions on the proper installation and the care and maintenance of this product. If you have questions at any time about the use, installation or performance of your Hansgrohe product, or this warranty, please write us or call us toll-free at 800-334-0455.
